

For 2016, all medical plans options are Non-Grandfathered and are fully compliant with the required provisions established through national Health Care Reform legislation.

Notices Regarding Your Medical Plan

The VPC Benefits Consortium health plan generally allows the designation of a primary care provider (This designation is only required for our HMO Plans). You have the right to designate any primary care provider who participates in our network and who is available to accept you or your family members. Until you make this designation, Anthem designates one for you. For information on how to select a primary care provider, and for a list of the participating primary care providers, logon to www.anthem.com or call Anthem Customer Service at **1-800-445-7490**.

For children, you may designate a pediatrician as the primary care provider.

You do not need prior authorization from our group health plan or from any other person (including a primary care provider) in order to obtain access to obstetrical or gynecological care from a health care professional in our network who specializes in obstetrics or gynecology. The health care professional, however, may be required to comply with certain procedures, including obtaining prior authorization for certain services, following a pre-approved treatment plan, or procedures for making referrals. For a list of participating health care professionals who specialize in obstetrics or gynecology, contact Anthem Customer Service at **1-800-445-7490** or logon to www.anthem.com.
