

Draft Parameters to Consider
CAMPUS PLAN GOALS

4 April 2012

Mission & Innovation

The Hampden-Sydney campus will support and advance the mission of the College.

- Critical Questions:
- Does this option support Hampden-Sydney's mission?
If so, how?
 - Does it offer a particular enhancement over other options?
If so, what and how?

[Consider: functions, zoning, opportunities, etc.]

Community & Coalescence

The Hampden-Sydney campus will support the College as a community and be a place that expresses the idea of coming together for reasoned discourse, historically and architecturally.

- Critical Questions:
- Does this option improve opportunities for people to come together either formally or socially?
 - Would the proposed function be conveniently located?
 - Would it benefit more or fewer people? What populations?

[Consider: location, access, adjacencies, etc.]

Heritage & Sense of Place

The Hampden-Sydney campus will symbolize the College, a men's college.

- Critical Questions:
- Is this option in keeping with the historic, geographic, landscape, and architectural context of the campus?
If so, or not, how?

[Consider: siting, scale, servicing, etc.]

Sustainability & Viability

The Hampden-Sydney campus will be linked to the real world and integrated with the global community.

- Critical Questions:
- Does this option offer any advantage in terms of sustainability? If so, what?
 - Is this option an effective use/reuse of an existing resource?
 - Would this option be more cost effective than others in terms of initial investment?
 - Would this option require significant investments either for construction or for long-term maintenance?

[Consider: orientation, embedded carbon, dollars, etc.]

EVALUTATION OF PLAN OPTIONS

Campus plan goals provide a means by which campus plan alternatives may be evaluated. The degree to which goals may be satisfied by plan alternatives is analyzed in the following charts.

- Fully Satisfies
- ◐ Partially Satisfies
- ⊙ Does Not Satisfy
- Not Applicable
