

August 24, 2018

Dear Statistics Student,

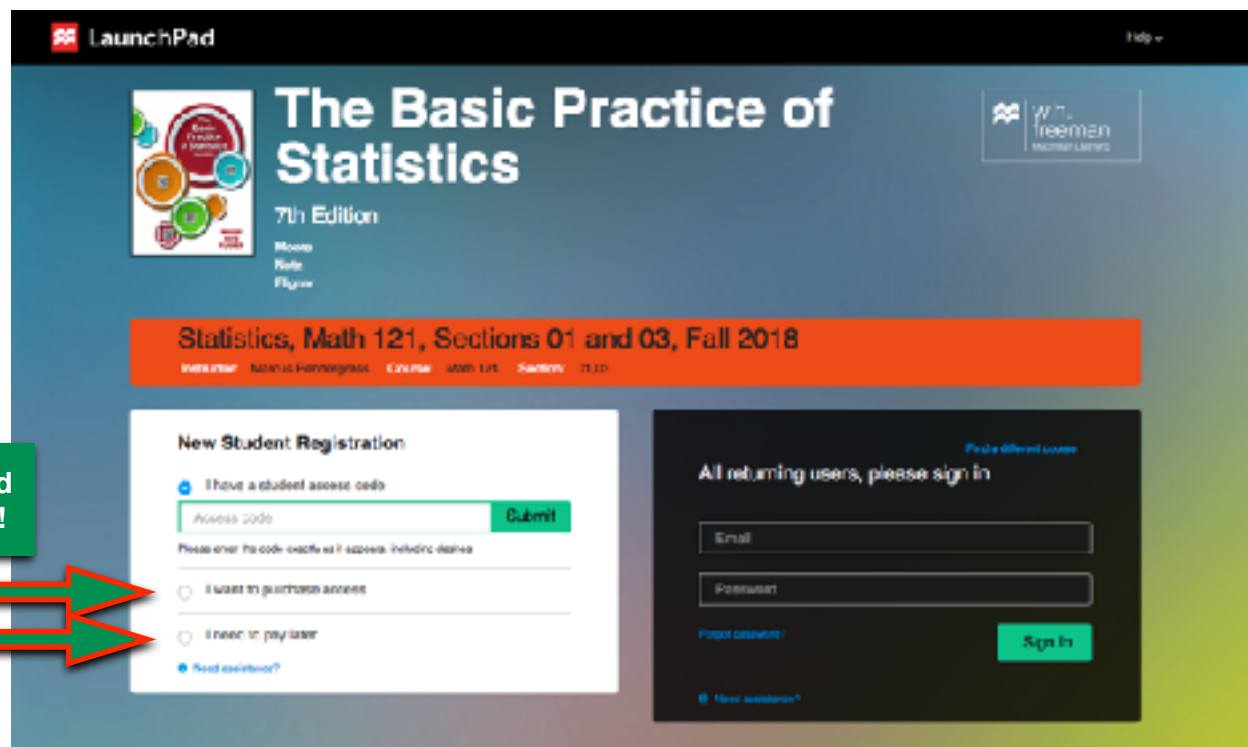

Welcome to my Statistics course at Hampden-Sydney College (Math 121). I look forward to meeting you in person Monday morning. But in the meantime, there is something important you need to do. Our course has an on-line component called **LaunchPad**, which is required for all students. LaunchPad contains both our electronic text, and an online homework system. **You need to get signed-up for LaunchPad now, before coming to class on Monday.** Please follow the instructions below carefully.

LaunchPad is now open for student registration. Follow these steps to get started. To register for LaunchPad click this link, or paste the URL below into your browser.:

<http://www.macmillanhighered.com/launchpad/bps7e/8645486>

Go ahead and bookmark the page to make it easy to return to.

When you go to the site, you will be given several options for registering and purchasing access to LaunchPad. **You should either purchase direct access immediately, or get the free 21-day access and then purchase access before the 21-day grace period is up.** (Don't try to use a student access code - we don't use them.)

With either of these options, you will have immediate access to the side. **Please note: homework assignments are already posted on LaunchPad. The first is due this**

**Wednesday (29 August). Not signing-up for LaunchPad is not a valid excuse for missing homework assignments.**

If you have problems registering, purchasing, or logging in, please contact Customer Support at (800) 936-6899, available from 9 a.m. to 3 a.m. EST, 7 days a week.

I'm looking forward to seeing you in class! In the meantime, have a great weekend!

MHP
